**Past Medical History**

9730937

History Obtained From: Family  
History: None Stated  
Allergies: Not Known  
Medications:

**Advanced Directives:****Impression**

9730937

Reason for Transport: Trauma - Abrasion(s)  
Secondary Impression: Other - No Secondary Impression  
Other Impressions:

**Narrative**

9730937

dispatched pri 1 to HPD for the male assaulted.

Upon arrival to HPD lockup met by HPD Lt who states that the 12 y.o. who they now have in custody was involved in a altercation with HPD on the bridge after he resisted arrest and had to be taken down at gun point and now needs to be looked at.

PT was found to be a 12 y.o. male cao x's 3 c/c abrasions to right side of face and swelling seen on left side of face after resisting arrest with HPD. Pt states that he was on the bridge with his friend who wanted to shoot himself when the police came and started to yell at him to get on the ground while at gun point, Pt states he did not comply with HPD request and was physically taken down to the ground and placed in handcuffs by the HPD. Pt states he can recall all the events and denies any LOC. ore

Pt was placed onto the stretcher and placed into the ambulance. PT Vs obtained, +PEARL, +DECPBTLS seen: Right side of face pt was observed to have facial abrasions and swelling seen to left side of face, -SOB, -CP, +N/V, lung sounds clear, left side ribs tender upon palpation, skin pink, warm and dry. NO other injuries found other than the above stated c/c.

Pt transported to HMC with HPD following. PT began to vomit approx 5 min PTA to HMC no other changes in pt condition. PT care and report given to Rn upon arrival to HMC.

**Vitals**

Time	BP	Pulse	RR	SPo2 %	GCS	Performed By
20:00	120/80 (93)	90	14	100	15	Shea, Maura, AMR
20:00	124/94 (104)	87	16	100	15	Shea, Maura, AMR

**Treatment and Response** 9730937

PTA	Time	Medic	Procedure
	20:00	Shea, Maura, AMR	Skin Assessment - Normal color, Warm temperature, Normal moisture.
	20:00	Shea, Maura, AMR	Pulse Oximetry - 100 % on Room Air
	20:00	Shea, Maura, AMR	Vital Signs - BP: 124 / 94, Pulse at: Radial, Pulse Rate: 87, Pulse Regularity: Regular, Pulse Strength: Normal, Respirations: 16, Respiration Depth: Normal, Respiration Effort: Normal.
	20:00	Shea, Maura, AMR	Glasgow Coma Scale - Eyes: 4, Verbal: 5, Motor: 6. Total : 15.
	20:00	Shea, Maura, AMR	Lung Sounds - Upper Right Lung: Clear, Upper Left Lung: Clear, Lower Right Lung: Clear, Lower Left Lung: Clear.
	20:00	Shea, Maura, AMR	Skin Assessment - Normal color, Warm temperature, Normal moisture.
	20:00	Shea, Maura, AMR	Pulse Oximetry - 100 % on Room Air
	20:00	Shea, Maura, AMR	Vital Signs - BP: 120 / 80, Pulse at: Radial, Pulse Rate: 90, Pulse Regularity: Regular, Pulse Strength: Normal, Respirations: 14, Respiration Depth: Normal, Respiration Effort: Normal.
	20:00	Shea, Maura, AMR	Glasgow Coma Scale - Eyes: 4, Verbal: 5, Motor: 6. Total : 15.
	20:00	Shea, Maura, AMR	Lung Sounds - Upper Right Lung: Clear, Upper Left Lung: Clear, Lower Right Lung: Clear, Lower Left Lung: Clear.
